Subject: [External] Requesting more public hearings for the Atlantic Coast Pipeline

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Hi Jenni,

Word is spreading that the NC DEQ will grant the Atlantic Coast Pipeline its water quality permit.

This is a really big issue for my group, Protecting Progress in Durham (650 people) and all the progressive and indivisible groups in the region and across the state. We are opposed to the ACP because of its racial and justice impacts, the impact it will have on climate, and the little (if any) economic development it will really bring. It's costs dwarf any benefit.

Our groups are mobilizing to ask for at least 3 hearings along the proposed route. Personally, I believe that the decision to grant the ACP its permits will impact the energy of canvassers and voters in 2018. It will certainly demoralize the leaders, myself included.

Sincerely,

Kelly Garvy
